

Welcome.

*At **Photoplay Studios** we pride ourselves on creating beautiful images, we believe you should be spoilt for choice of images from your wedding day to show your family and friends! We have over 15 years experience photographing weddings and have photographed hundreds of weddings over the years.*

This guide will provide you with some information about our wedding photography, what to expect, and how to help us make your wedding day as unique and relaxed as it can be.

We are pleased to provide Adelaide with professional wedding photography, in a simple, elegant, artful way. We look forward to spending your wedding day with you.

Prices.

Our wedding photography packages start from as little as \$820. We feel its important that every couple is able to have professional wedding photography for their big day.

Our packages are designed to suit the uniqueness of each couples wedding day. If our packages don't fit your plans, let us know and we can further tailor them to suit YOUR day. We have lots of premium locations in Adelaide and South Australia we can suggest if you haven't already chosen where you would like your creative images to take place.

We will blog a "first glimpse" of your images as well as a "wedding day" preview on our Photoplay Studios facebook page.

Approximately 2 weeks after your wedding, your fully edited artwork images will be available in our online private gallery for viewing. With your permission, your guests will be able to share their favourite photos of your wedding day over the internet.

Your Wedding Day

Before your wedding day.

It's best to arrange a "meet and greet" as soon as you have decided on a wedding date.

Most couples who meet me say "I don't know how long to allow for different parts of the day"

Draw on my experience.

Chances are you've not done this before, but I have. The pre-wedding meetings we have together are great for many reason – for you to decide if I'm the person you want sharing and capturing your wedding day, to look through some past weddings I've photographed and to get an idea of what your day can include.

Photography is all about timing. I'm not pushy or in your face but I like to work to a rough time frame to ensure I capture for you the best wedding photographs I can, given the time and light available.

Your Wedding Day

Your Wedding Day.

My aim is to achieve beautiful images for you that you will be proud to showcase in your home. I like to keep things fun and most of all relaxed. My style is unobtrusive, letting your wedding day unfold just as you planned. And then there are times when I guide you in a friendly manner for your creative images.

Having photographed hundreds of weddings over the past 15+ years I know which shots to take, and more importantly which photos not to forget!

I can't think of too many other days in our lives where we stand in front of family and friends and make the promise to love and care for our soul mate - you want to make sure you have a photographer who has the experience and knowledge to capture this special day, no matter the weather - and not missing those candid moments that are so precious on your wedding day.

After the big day.

You will be presented with a "first glimpse" on our blog so you can have a little peek at a couple of your images prior to receiving them.

*Once you have received your photographs we also add them to our online private gallery so you can view and share them with friends and family.
Your photography package and high resolution files will be prepared and ready within 2 weeks of your wedding day, guaranteed!*

We pride ourselves on hassle-free service for your wedding photography.

Your Wedding Day

Thank you.

I feel it's important that couples have the opportunity to experience quality professional photography without committing several thousands of dollars for their wedding images.

To ensure you secure a professional photographer for your wedding, book a "meet and greet" session early and discuss your plans, this way you will have a better idea of how much time is needed for different parts of the day.

Thanks for taking the time to read through this information, hope its helped! If you have any other questions, please contact me at any time.

I look forward to spending your wedding day with you.

*Please visit our website **www.photoplaystudios.com.au** or phone on **0438 267 269** to arrange an appointment today.*
